

MM-268-01

PORTABLE IMPACT WRENCH & Sleepers Drilling Machine

MAV 4000 B

MAV 2200 B

Designed to screw and unscrew screws and nuts and to anchor the rail to the sleeper, as well as in all those operations where, in the absence of electric current, it is necessary to tighten / loosen nuts, bolts, pins, etc.

They feature two 60V Li-ion batteries and advanced Brushless Motor (BLDC) for maximum power and efficiency. The 60V battery delivers 35% more runtime than a 20V battery with the same power capacity (60V @ 2.0Ah vs 20V @ 6.0Ah) while producing less heat and requiring less maintenance. Experience high power, efficiency, and durability with our battery powered portable impact wrench.

Advanced All-In-One Brushless Motor technology offers high torque power, efficiency, and durability. It requires less maintenance compared to normal motors that need carbon brush replacement.

This machine have electronic torque controls, allowing users to choose preset torque levels for precise and safe tightening. No need to worry about over torque and damage to applications.

For comfortable night work, the machine is equipped with 2 LED lights.

MAV 4000B features a removable & 360° Adjustable side handle.

Optionally, we can supply:

- Sockets, extensions, articulations and drill bits of any type
- A chuck with cylindrical shaft for the standard drill bits

- High torque
- Brushless technology
- Lightweight 6-11 kg
- 2 LED lights for night work

Technical Specification

MAV 4000 B	SAFE 58581400
Electric engine	Brushless
Voltage	60 Vdc
Max unscrewing torque	4100 Nm
Max tightening torque	3000 Nm
Torque setting range	340/680/1080...1690 Nm
No Load speed	1200 rpm
Impact per minute	0-1450 ipm
Drive size	1" (inch)
Dimensions	600x280x180 mm
Weight each battery	1 kg
Weight machine	11 kg
Charger	Included

MAV 2200 B	SAFE 58581200
Electric engine	Brushless
Voltage	60 Vdc
Max unscrewing torque	2200 Nm
Max tightening torque	1450 Nm
Torque setting range	150/160/170...500 Nm
No Load speed	1600 rpm
Impact per minute	0-2000 ipm
Drive size	1" (inch)
Dimensions	810x300x90 mm
Weight each battery	1 kg
Weight machine	6 kg
Charger	Included

Optional
Drilling Chuck
SAFE 58581300
